Bacterial culture media are mixtures of nutrients, minerals and other elements ideal for the growth of microorganisms. Depending on each culture's composition, it promotes or inhibits the growth of a specific microorganism or group of microorganisms. There are two main types, solid and liquid media. Solid media contain the solidifying agent agar, whereas liquid media, which are also called broths, don't. The bacterial cultures are available in dehydrated or ready-to-use formats. The dehydrated format is a mixture of all the elements in a powder that must be rehydrated and sterilised, while the medium is already hydrated in the ready-to-use format.

Acetamide medium

03-428

DIN / EN / ISO

Liquid test medium use for the confirmation of *Pseudomonas aeruginosa* in water according to the ISO 16266 standard and UNE-EN ISO 12780.

Algae Agar

01-007

SMWW

Solid culture medium for the isolation and cultivation of algae from soil, water and waste water.

Algae Broth

02-007

SMWW

Nutritive solution for algae and cyanobacteria, appropriate for water algicide biotesting.

Antibiotic Medium A pH 6,6 (Eur. Pharm.)

01-009

EP / HP / USP

Antibiotic Medium A at pH 6,6 is used in microbiological antibiotic assays using agar diffusion technique according to European pharmacopeia 9.0.

Antibiotic Medium A pH 7,9 (Eur. Pharm.)

01-017

EP / HP / USP

Antibiotic Medium A at pH 7,9 is used in microbiological antibiotic assays using agar diffusion technique according to the methodology recommended in the pharmacopeia.

Antibiotic Medium B (Eur. Pharm.)

01-016

EP / HP / ISO / USP

Antibiotic Medium B is used in the microbiological assays of Colistimethate and Polymyxin by the Agar Diffusion method according to the methodology pharmacopeias.

Antibiotic Medium C (Eur. Pharm.)

Characteristic

Presentation : 500g *

Type of packaging : vacuum wrapped flask

02-011

EP / HP / USP

Antibiotic Medium C may be used in the preparation of inoculum, serial dilutions or turbidimetric antibiotic assays.

Antibiotic Medium E (Eur. Pharm.)

01-016

EP / HP / ISO / USP

Antibiotic Medium B is used in the microbiological assays of Colistimethate and Polymyxin by the Agar Diffusion method according to the methodology pharmacopeias.

Antibiotic Medium F (Eur. Pharm.)

01-434

EP / HP / ISO / USP

Antibiotic Medium F is used in the titration of antifungal antibiotics by the agar diffusion method according to the pharmacopeia.

Antibiotic Medium No. 3

064-TA8313

USP

General purpose liquid medium for the direct inoculation of samples from the fermentation tanks.

Antibiotic Medium No. 8

01-014

USP

Solid medium for the antibiotic assay by the agar diffusion method.

APT Agar

01-026

COMPF

Solid medium for general purpose use, especially designed for the cultivation of the heterofermentative lactic acid bacteria that cause greening of meat.

Arginine glucose Agar

01-743

ISO

Diferential solid medium used for the presuntive identification of *Vibrio* spp according to ISO standards 21872-1 and 21872-2.

Asparagine Broth

02-271

Liquid medium for assay and enumeration of presumptive *Pseudomonas aeruginosa* in bottled water by MPN Method.

Azide Dextrose Broth (Rothe)

02-027

COMPF

Medium for the detection and enumeration of enterococci in water.

Azide Ethyl Violet Broth (EVA Broth)

02-028

COMPF / SMWW

Liquid medium for the confirmation of enterococci in water.

Bacillus cereus Agar

01-262

COMPF / FIL-IDF / ISO

Selective solid medium, according to Mossel, for the isolation and identification of *Bacillus cereus* from food samples according to ISO standards 7932 and 21871. This medium needs add 100 mL of Egg Yolk Sterile Emulsion (Art. No. 06-016) and 100 mg/L of Polymyxin B (Art. No. 06-021LYO1).

Bacillus cereus Selective Agar

01-487

FIL-IDF / ISO / NKML

Selective solid medium for the enumeration of *Bacillus cereus* in food, according to ISO 21871 and NMKL 674 Standards. This medium needs add 50 mL/L of Egg Yolk Sterile Emulsion (Art. No. 06-016) and 2 vials/litre of Polymyxin B Sulfate (Art. No. 06-021LYO1).

Baird Parker Agar Base

01-030

BAM / EP / ISO / USP

Solid and selective culture medium for the screening of staphylococci from a variety of samples, according to pharmacopeias and ISO 5944, 6888-1 and 22718 Standards. This medium needs

add 50 mL of Egg Yolk Tellurite Sterile Emulsion (Art. No. 06-026-100 with NaCl or 064-BA1018 without NaCl).

Baird Parker RPF Agar

064-PA0145

EP / FIL-IDF / ISO / USP

Solid culture medium for the enumeration of coagulase-positive staphylococci in food and in the control of food processors. According to ISO 5944,6888-1 and 22718. Add to each flask of medium base 1 vial re-suspended in distilled water with 10 ml of RPF (Art. No:064-TA0155).

BAT Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

BAT Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

BCYE Legionella Agar Base

BCYE Legionella without Cysteine

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

BCYE+AB Legionella Selective Agar (ISO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Beerens Cosmetic Diluent

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Bile Esculin Azide Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Bile Esculin Modified Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Blood Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Blood Agar Base (Columbia)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Blood Agar Base No. 2

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Bolton Enrichment Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Brain Heart Infusion (BHI) Supplemented with SPS (0,05%)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Brain Heart Infusion Agar (BHI Agar)

Dehydrated media in 500 g: our Pac-o-Vac® packaging

Scharlau 500 g bottles of dehydrated media are vacuum-packed in an additional transparent plastic outer bag called **Pac-o-Vac®**.

This airtight packaging provides **high protection against moisture, dust particles and microorganisms**. It ensures optimal storage conditions and protects the product from alterations in its physical and organoleptic properties, even under unfavourable climatic conditions.

Brain Heart Infusion Broth (BHI Broth)

Dehydrated media in 500 g: our Pac-o-Vac® packaging

Scharlau 500 g bottles of dehydrated media are vacuum-packed in an additional transparent plastic outer bag called **Pac-o-Vac®**.

This airtight packaging provides **high protection against moisture, dust particles and microorganisms**. It ensures optimal storage conditions and protects the product from alterations in its physical and organoleptic properties, even under unfavourable climatic conditions.

Brettanomyces Agar

Dehydrated media in 500 g: our Pac-o-Vac® packaging

Scharlau 500 g bottles of dehydrated media are vacuum-packed in an additional transparent plastic outer bag called **Pac-o-Vac®**.

This airtight packaging provides **high protection against moisture, dust particles and microorganisms**. It ensures optimal storage conditions and protects the product from alterations in its physical and organoleptic properties, even under unfavourable climatic conditions.

Brilliant Green Agar (BGA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Brilliant Green Bile 2% Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Brilliant Green Modified Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Brucella Farrell Agar (Modified)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Bryant & Burkey, lactate broth (BBLB)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Buffer Phosphate pH 7,2 (0.05M)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Buffered Peptone Phosphate Water

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Buffered Peptone Water (Eur. Pharm.) + 0,1% Histidin + 0,3% Lecithin + 3% Polysorbate 80

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Buffered Peptone Water (ISO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Buffered Peptone Water 0,1% (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Buffered Peptone Water Modified

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Burkholderia cepacia Selective Agar Base (BCSA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Cary-Blair Transport Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Casein Lecithin Polysorbate, Broth base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

CCD Modified Agar (Charcoal Cefoperazone Deoxycholate)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Cetrimide Agar (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Chapman Agar (Mannitol Salt Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Chapman TTC Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Chloramphenicol Glucose Agar (CGA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Chocolate Agar – Supplemented

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Christensen's Citrate Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

CLED Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Clostridium difficile, Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Clostridium perfringens Selective Agar (SPS Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

CN Selective Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Columbia Agar (Eur. Pharm)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Columbia CNA Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Cronobacter Selective Broth base (CSB)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Czapek-Dox Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

D/E Neutralizing Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

D/E Neutralizing Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Decarboxylase Lysine Broth (Taylor)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Deoxycholate Lactose Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Dermatophytes Selective Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Dextrose Tryptone Purple Bromcresol Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

DG 18 Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

DG 18 Metal Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Dichloran Rose Bengal Chloramphenicol Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

DNase Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

E. coli Broth (EC Broth)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Endo Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Endo LES Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Enrichment Enterobacteriaceae Broth (EE Broth)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Eosin Methylene Blue Agar (EMB Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Eugon LT Modified, Agar Base

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Eugon LT Modified, Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Fecal Coliforms Agar (m-FC Agar)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Fluid A

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Fluid A 0.1% + buffer

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Fluid D

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Fluid K

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

GBS Modified Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

GC Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Giolitti-Cantoni Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Glucose Bromocresol Purple Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Gram Negative Broth (GN Broth)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

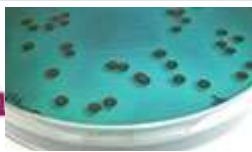

Haemophilus Test Agar Base (HTM)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

HC Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Hektoen Enteric Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

HTM Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

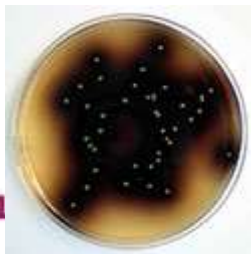

Iron Sulfite Modified Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

K Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

**Kanamycin Esculin Azide Agar (KAA Agar) **

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

**Kanamycin Esculin Azide Broth (KAA Broth) **

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

**Kenner Fecal Agar (KF Agar)**

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

**King A Agar (P Agar) **

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

King B Agar (F Agar)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Kligler Iron Agar (KIA)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lactose Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lactose Gelatin Medium

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lactose Sulfite Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lauryl Sulfate MUG Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

LB Agar (Miller)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

LB Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

LB Broth (Lennox)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

LB Broth (Miller)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Legionella Acid Buffer Solution pH 2,2

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Legionella Selective (GVPC) Agar (ISO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Legionella Selective (MWY) Agar (ISO) with Anisomycin

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lethen Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lethen Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lethen Modified Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lethen Modified Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lethen Modified Broth (FDA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Liebermeister & Braveny Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Linden Grain Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Listeria Enrichment Broth Base (Lovett)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Listeria Enrichment Broth Base (UVM)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Listeria Enrichment Broth Fraser

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Löwenstein-Jensen Medium Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Löwenstein-Jensen Pyruvate Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lysine Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Lysine Iron Agar (LIA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

m-CP Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

m-Green Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

m-Green Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

m-Lauryl Sulfate Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

m-TGE

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

M17 Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MacConkey Agar (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MacConkey Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MacConkey Broth (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MacConkey No.2 Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MacConkey Sorbitol Agar (Modified)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Malt Extract Agar (Blakeslee)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Malt Extract Agar No. 1

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Malt Extract Agar No. 2

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Malt Extract Agar No. 3

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Malt Extract Broth No. 1

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Malt Extract Broth No. 2

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Mannitol Motility Test

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Marine Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Maximum Recovery Diluent (MRD)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Methyl Red Voges Proskauer Broth (MRVP Broth)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Methyl Red Voges Proskauer Saline Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Microbial Content Test Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Mineral Modified Glutamate Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Mineral Modified Glutamate Medium Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Motility Indol Ornithine Fluid Medium (MIO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Motility Indole Urea

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Motility Nitrate Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MP Buffer pH= 7,0 Solution + Polysorbate

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MRS Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MRS Agar (ISO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MRS Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MRS BROTH Non Animal

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

MRS, Broth (Non porcine origen)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Mueller-Hinton Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Mueller-Hinton Blood Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Mueller-Hinton Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Müller-Kauffmann Tetrathionate Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Neutralizing Broth (APHA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Neutralizing Fluid

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Neutralizing Special Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nickerson Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nitrate Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nutrient Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nutrient Agar (APHA, ISO)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nutrient Agar (ISO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nutrient Broth (APHA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Nutrient Broth (B.Ph.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Orange Serum Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Oxford Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

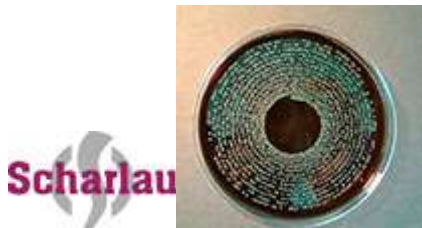

Oxidation-Fermentation Fluid Medium Base (O/F Medium)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Oxidation-Fermentation Glucose Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Palcam Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Peptone from casein Agar Medium (GA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Peptone Water, Alkaline

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Peptone Water, Alkaline Saline

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Peptone Water, Salt

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Phenol Red Broth Base

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Phenylalanine Agar (PPA)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Phosphate Buffered Saline (PBS) pH 7,2

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Plate Count Agar (PCA)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Plate Count Modified Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Plate Count Skim Milk Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Potato Dextrose Agar (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Potato Dextrose Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Preston Campylobacter Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Preston Campylobacter Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Pseudomonas Agar Base (ISO)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Pseudomonas CFC Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Purple Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

R2A Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Raka Ray Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Rappaport Vassiliadis Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Rappaport Vassiliadis Modified SemiSolid Medium Base

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Rappaport Vassiliadis Salmonella Enrichment Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Reinforced Clostridial Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Reinforced Clostridial Medium (Eur. Pharm.)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Reinforced Clostridial Medium Differential (DRCM)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Rhamnose Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Ringer, powder

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Rose Bengal Chloramphenicol Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud Broth (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud Chloramphenicol Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud Chloramphenicol Modified Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud Chloramphenicol Penase Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud Dextrose Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud Oxytetracycline Agar (OGYEA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sabouraud TLHTh Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Saline Solution

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Salmonella Shigella Agar (SS Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Schaedler Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

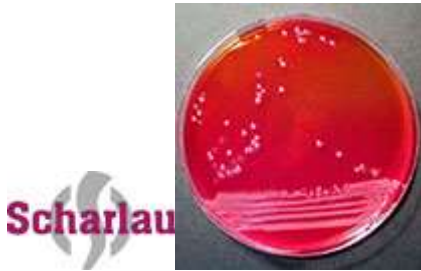

Scholten's Agar modified

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Scholten's Broth modified

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Selenite Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Selenite Cystine Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Shigella Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

SIM Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Simmons Citrate Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Slanetz Bartley Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sorbitol Bile Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sporulating Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Stuart Ringertz Transport Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Sugar Free Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

TAT (Tryptone - Azolectin- Tween®)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

TCBS Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Terrific Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tetrathionate Bile Brilliant Green Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Thayer Martin VCNT Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Thioglycollate Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Thioglycollate Fluid Medium

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Thioglycollate Fluid Medium Penase

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Todd-Hewitt Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

TOS Propionate agar base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tributyryn Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Triple Sugar Iron Agar (TSI Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptic Soy Agar (TSA) (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptic Soy Broth (TSB) (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptic Soy Broth Modified

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptic Soy Broth without Dextrose

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptone Bile Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptone Glucose Extract Agar (TGE Agar)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptone Sulfite Neomycin Agar (TSN Agar)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptone Water

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptone Yeast Extract Agar

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptophan Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptose Lauryl Sulfate Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptose Lauryl Sulfate Mannitol Tryptophan Broth

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptose Lauryl Sulfate Modified Base Broth (mLST)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Tryptose Sulfite Cycloserine Agar (TSC Agar)

Scharlab offers Scharlab dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Universal Beer Agar (UBA)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Urea Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Urea Broth Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Violet Red Bile Dextrose Agar (VRBD AGAR) (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Violet Red Bile Lactose Agar (VRBL Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Violet Red Bile Lactose Dextrose Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Vogel Johnson Agar (VJ Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

WL Nutrient Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

WL Nutrient Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Wort Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Wort Broth

XL T4 Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Xylose Fermentation Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Xylose Lysine Deoxycholate Agar (XLD Agar) (Eur. Pharm.)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Xylose Lysine Deoxycholate Modified Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Yeast Extract Peptone Dextrose Broth (YEPD Broth)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Yeast Malt Agar (YM Agar)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Yeast Malt Broth

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Yeast Starch Glucose Agar

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Yeast Starch Glucose Broth (YSG)

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.

Yersinia CIN Agar Base

Scharlab offers Scharlau dehydrated culture media in different formats adapted to our customers' needs: pre-weighed sachets to prepare 500 mL, 500 g flasks and large quantities in 5 kg and 25 kg drums.
